OUR FLEET SOLUTION

With OJO FLEET, manage your fleet operation and track your vehicle's activities and location in real-time while they are on move. OJO FLEET empower the fleet operations & management with IT driven system which helps in managing and controlling the fleet across different terrain during transit. It automates manual processes nullifying the use of physical maintenance of records thereby saves time and brings operational efficiency.

OUR FLEET SOLUTION

- Streamline process and record management for management of resources.
- Increase productivity.
- Schedule and manage transportation.
- Optimize route planning and dispatch.

KEY FEATURES

OJO PLATFORM

▶ VEHICLE VIDEO SURVEILLANCE SYSTEM

HD video recording locally and support playback & download remotely as evidence

▶ IMPROVE DRIVING STYLE

Improve fuel efficiency, reduce costs and reduce emissions through the identification of improvement opportunities in driving style.

▶ AUDIO CALLS

Two-way audio communication between driver and center if needed on dedicated military network.

▶ SOS!

Real time Alarm uploaded to center when triggered

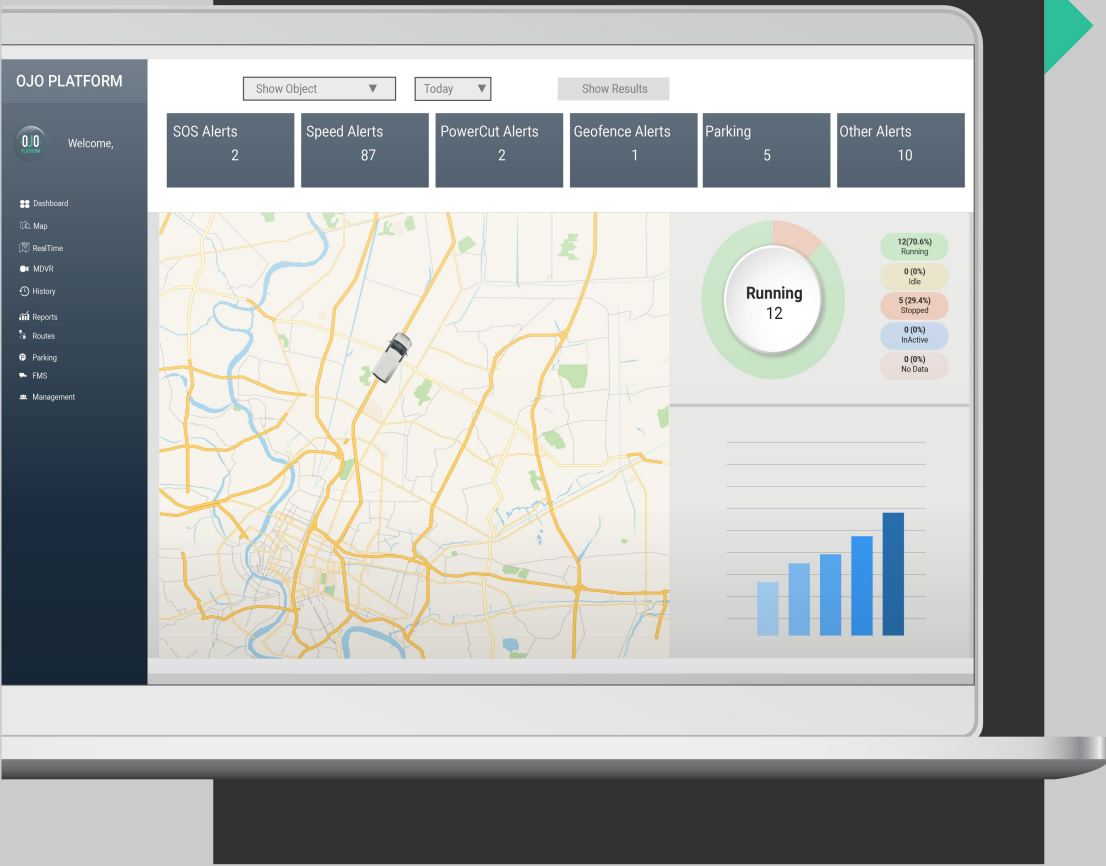

▶ MAXIMISE FLEET UTILISATION

Get the most from your assets through real-time visibility and full measurement of usage.

▶ BUSINESS INTELLIGENCE

A powerful management dashboard helps you analyze all of the data from your fleet and view vehicle and driver performance trends to enable better business planning.
